## FOR DISTRICT JUDGE.

The Walker Lake Bulletin says:

There are many candidates for the Republican nomination for District Judge and all are good men and sound lawyers. None, however, go before the people with a better record than the candidate from this county, Hon. M. A. Murphy. Having entire confidence in his integrity and ability, the county is almost as a unit demands a place for him on the Judicial ticket. Nor is the feeling in favor of Judge Murphy simply a local preference; in Lyon county, which is his present judicial district, he has an undivided support. The people there will be content to see any other two candidates nominated, but they will insist on M. A. Murphy as the third. In other parts of the State he is popular and strong and his nomination and election are almost to be regarded as certain.

While few of our Nevada Democrats have had much to do with the silver decline, they support the men who have brought disaster on this State and will again. The times will remember this and their vote will show their correct understanding of the sentiments of their pretended friends.—Walker Lake Bulletin.

Democratic nominations in Nevada, will be empty honors this time.—Walker Lake Bulletin.

The old cry is heard throughout the land. Blaine's powerful address and caustic review of the situation at Sebago the topic of the hour. The New York Tribune's special from Lake Sebago, Me., of August 24th, says:

Blaine's first speech in the Maine campaign was delivered here to-day to an audience numbering about 7,000 people. As the village has a population of less than 300, those present came from long distances, many in carriages driving twenty miles, and the others coming by train. For attendance and enthusiasm it was, for an opening meeting, one of the most remarkable ever held in Maine. When Blaine arrived on the ground, accompanied by General Gibson, of Ohio, Congressman Reed, Colonel Dow, a son of General Neal Dow, Messrs. Dyer, Baker and others, there was great cheering, and as much interest was shown as during the Presidential canvass two years ago. The people were assembled in a grove, and Blaine addressed them from a platform in the open air. In order to escape misrepresentation he took the unusual precaution to read his speech, which was listened to with close attention. He was frequently interrupted by applause, particularly when speaking to the laboring men, and in the course of his caustic review of Bayard's extraordinary conduct in the fisheries question. There were a good many persons from Portland present who were directly interested in this question, and they were loud in their approval of what Blaine said. His reference to Bayard's insolence toward Mexico invoked applause, and was a pretty fair indication of the feeling on that question.

Congressman Reed followed Blaine in a short speech, in which he remarked that Blaine was very conservative in what he said, and that the Administration's fisheries policy was so outrageous as to elicit the hearty indignation of the people of Maine. Reed pitifully reviewed the failure of the Democrats to redeem their promises, and then gave way to General Gibson, of Ohio. In the course of his interesting address he said that had Blaine been elected the country would not have been humiliated by the failure of the Government to protect its fisherman or its citizens in their rights, and that it would have been accomplished without war. This reference to Blaine elicited tremendous cheering, which was followed later by three cheers and a tiger for Blaine, and like cheering for Congressman Reed, in whose district the meeting was held.

At the close the people crowded about Blaine, who held an impromptu reception. Blaine speaks to-morrow at South Berwick. The meeting to-day furnished the best evidence that Blaine is as popular as ever with the people of Maine, and that the party is as ready to meet the Democrats now as in the last election. The Republican leaders were greatly delighted over to-day's meeting.

The "Plumed Knight" made his second speech of the Maine campaign at Berwick on the 25th. He twitted the Prohibitionists of inconsistency and of ingratitude toward the Republican party, which had given the State all the prohibitive legislation it ever had. He spoke of the fishery question, also on the labor and tariff issues.

The Iowa Republicans are in State Convention at Des Moines and their platform declares that the Democratic National Administration has failed to redeem any of its pledges to the people, and condemns the President's vetoes; demands that the public domain shall be given only to actual settlers in limited quantities; oppose the acquisition of public lands by non-resident aliens; arraigns the Democratic majority in the National House of Representatives for not passing promptly the Cullom Interstate Commerce and Sioux City and St. Paul Land Grant. Forfeiture bills; urges the Iowa Representatives in Congress to support a bill for the admission of Dakota; demands the enactment of laws giving all disabled veterans of the late war pensions, dating all pensions from the time when the soldier's disability began, and granting pensions to all veterans of the Mexican war.

The Ohio Republicans, in session at Columbus, send out a platform which condemns the Democratic party for involving the United States in a quarrel with the sister Republic of Mexico when arbitration was at hand; condemns the removal of old soldiers from office on the ground of offensive partisanship as alleged; endorses the present General Assembly in providing for disabled soldiers of the State and also making lib-

eral appropriation for their care, and condemns the wholesale vote of pension bills in the interest of soldiers by the President. It believes in the Republican doctrine of a tariff, and its development and protection of labor interests, and favors the restoration of the wool tariff of 1867, and condemns the placing of the same on the free list.

The California Republicans, at Los Angeles, have adopted a platform which embraces five subjects—labor, silver, the Chinese, State taxation and irrigation. It advocates the encouragement of free, intelligent labor, and declares its belief that co-operation among laborers is for the best interests of society. Mining interests should be protected, and it favors the free coinage of silver. It says that while the Chinese now in the country under treaty stipulations should receive the protection of the laws, it positively affirms that further immigration of Chinese must be stopped. It recommends for the consideration of the Legislature whether the method adopted of taxing railroad corporations, as declared by the State Constitution, is in conflict with the Constitution of the United States, and favors just and equal taxation for all. It favors the immediate passage of a law declaring that no rights to water shall be acquired by appropriators tending to obstruct the State assuming the control of water whenever it shall deem it proper to do so. Individual rights must be protected, but if such rights interfere with the general public good, then they shall be condemned and taken for public use. "The mission of the Republican party is not yet ended."

Cutting has published an address to the people of the United States, in which he thanks them, the press of Texas, and particularly Consul Brigham, for the interest taken and assistance rendered him during his imprisonment. He says the main issue, that of Mexico's right to extra-territorial jurisdiction over foreigners, is not at all settled by his release. He winds up with a violent abuse of Mexico and her institutions, and hopes the United States will soon invade and conquer the whole country.

At the Baldwin Locomotive Works there are in course of construction four locomotives which are designed to be run by soda, which takes the place of fire under the boiler. Soda has much the same power as coal without any of the offensive gases which that fuel emits. The engines are now nearly finished, and are to be shipped within two weeks to Minneapolis, Minn., and are to be run on the streets of that city, where steam-engines are forbidden.

DEMOCRATIC STATE TICKET.—The Reno Journal says "Jewett Adams will be the Democratic nominee for Governor; Cassidy for Congress; Belknap for Supreme Judge; Cresswell, Webster and Fitzgerald, District Judges; Brady, Secretary of State; Schooling, State Treasurer; Harry Day, Surveyor General; Henry Duffy, State Printer." Now let the Journal give us the Republican State ticket.—Enterprise.

The Journal can not, but is satisfied it will be a better ticket than the other.

Ex-Councilman George Chambers, of Pittsburg, has decided to swim the whirlpool at Niagara. He says he will start next week if nobody interferes with him. He will go through the whirlpool without a cork jacket, a barrel or anything else, depending on his powers as a swimmer to carry him through all right. His belief is that any man can accomplish the task if he keeps cool and does not lose his head.

Rev. Henry Ward Beecher is ill. He has canceled his lecture engagement at New Brighton for next Friday and has gone to the Hydropathic Institute at Moffat, Dumfriesshire, Scotland.

Ex-Senator and would-be Senator, W. M. Stewart, is at Los Angeles, manipulating the California Republican State Convention. Wonder if they will nominate a Senator from Nevada.

It is reported that Appointment Clerk Higgins will resign about October 1st and that G. W. Albright, a friend of Secretary Manning, will succeed him.

Governor Hill has approved the removal of Commissioner of Public Works Squire, of New York city.

# Imports and Exports.

WASHINGTON, Aug. 24.—The Chief of the Bureau of Statistics has sent to the Acting Secretary of the Treasury a statement of the values of imports and exports of the United States for the month of July, 1886, and for seven and twelve months ending July 31, 1886. The value of exports of merchandise for the month of July, 1886, according to statement, was \$52,782,707, and that of imports of merchandise, \$55,530,709. For twelve months ending July 31, 1886, the exports in merchandise amounted in value to \$686,555,499, and imports \$641,853,273, an excess of exports over imports of \$44,703,226. The value of imports and exports of the two previous months for the same period is as follows: For July, 1886, exports, gold, \$1,175,311; silver, \$2,246,379. Imports, gold, \$580,072; silver, \$1,405,087. Twelve months ending July 31, 1886, exports, gold, \$42,797,932; silver, \$28,541,554.

# Taxing Unpatented Lands.

When Governor Zuelick, of Arizona, had an interview with Secretary Lamar a few days ago he called attention to a subject which affects largely the interests of that Territory, namely: The survey of lands along the completed portions of the Atlantic and Pacific Railroad, so that they can be taxed. Only about one-third of the land has been surveyed, and under the law passed by the late Congress surveyed lands can be taxed without, as heretofore, being patented. The Secretary referred the Governor to the General Land Office, where he was told that survey would be advanced as rapidly as possible, although, owing to reduced appropriations, probably only a portion of the land could be surveyed. The new law authorizing the taxation of surveyed lands before patents are issued affects large tracts of land in nearly all of the States and Territories in the West, and as soon as the department issues the necessary circular of instructions the tax will be imposed.

# Good Words for California's Hospitality.

WASHINGTON, Aug. 24.—G. A. R. delegates from Washington returned last night and were given a reunion reception. They were met at the depot by a large number of comrades and friends who escorted them to the Grand Army Hall. Had any Californians been in the hall their well-known modesty would have made them blush to the tip of their ears while listening to the praises which were showered upon them, their hospitality and their State, by the returning delegates and veterans who were eloquent in expressing their admiration, and made every one who had staid at home feel badly because he had not been able to participate. An hour was spent in speech-making, and a banquet wound up the exercises.

Senator Van Wyck, of Nebraska, says the Washington Star, finding that the Legislature shows signs of retiring him to private life, appeals to the people of the State to exercise the right, which the State Constitution gives them, of taking the election of Senators into their own hands. Such a course would probably result in his re-election, as he is regarded as popular with the masses, while the Legislature is more under the control of the various monopolies which he has bitterly opposed in the Senate. If the people of Nebraska should follow his advice it would be a political incident of much interest. The Senate is not a popular representative body, as at present constituted, and many contend that it is better for the country that it is not. If the citizens, however, should take a notion to elect their own Senators, in the States where they can constitutionally do so, it might prove an entertaining wedge of great potency, and bring about in time an entirely new state of things in the upper house of Congress.

The Nevada Bank has taken the Southern Pacific Railroad of Arizona bonds. This is an original issue of \$9,704,000, nearly all of which remained in the Treasury of the Southern Pacific Company. They are First Mortgage 6 per cent. 30 year Gold Bonds, due in 1909 10. A sinking fund is in operation beginning in 1885. We presume these bonds will shortly be marketed.

# A Woman's Feat.

New York, August 25.—The Sun's special of August 24th says: Miss Jeanette Larks, a handsome young lady of Youngstown, swam the Niagara river below the rapids, near her home, this afternoon. She was accompanied by William Wilkinson, and the distance was about a mile and a half. Miss Lark reached the Canada shore with very little exhaustion and seemed perfectly fresh, although her companion was very tired. This is the first time that a lady has accomplished the feat of swimming the river at this point.

# COUNTY BOUNDARY.—The Austin Revelle remarks:

Allusion was made in these columns last Friday of a survey just made by Eureka county, unknown to Lander, of the boundary between the two counties whereby the major portion of Cortez was thrown into Eureka. That the survey was made without the knowledge of Lander has a peculiar look. The amount of taxable property that is involved in this matter yields about \$18,000 a year and is well worth looking into by our Commissioners. Some time since a correspondence was had between the two Boards about it and our Commissioners declared they were satisfied with the old survey made when Eureka county was formed. So was Eureka until Mr. Wenban built a new mill further west which threw it into Lander. Then our neighbors kicked and this new survey was made by it and it was so run that the new property was thrown into that county. Lander proposes to look into this matter and see that fair play is had. It would have looked better had this county been notified of the intended survey and been asked to send a representative along to represent its interests.

SUPR. OF PUBLIC INSTRUCTION.—Wm. B. Daugherty, ex-Deputy State Controller, will present his name to the Republican State Convention at Carson City next month, for the position of Superintendent of Public Instruction. It is useless for us to say who is Billy Daugherty, for his name is known from one end of the State to the other. His qualifications for the position are first-class in every respect. Though not generally known as a teacher, Mr. Daugherty spent many of his best years in the school room. He began public life as a teacher in the public schools of San Joaquin county, California, and has yet in his possession a first grade certificate issued by the Board of Examination of that county.

For a number of years he followed this profession with success, only leaving it to come to Nevada to engage in prospecting and mining. He arrived in Nevada in 1864, and has ever since been one of her best and most highly respected citizens.

Beyond question, W. B. Daugherty's name would add strength to the ticket and if nominated and elected, our citizens can rest assured that the duties of the office will be performed with ability and faithfulness.—Elko Free Press.

It is now pretty well understood that Mr. Manning will never resume active service in the Treasury Department. His resignation will afford the President an opportunity to inaugurate a change in the financial policy of the Administration relating to silver, in accordance with the wishes of a large majority of those who voted for him, and with the platform upon which he was elected. Salt Lake Democrat.

A POSTAL LETTER SHEET.—It is said that the new stamped letter sheet about to be issued by the Postoffice Department promises to be of great convenience. It is a letter sheet with a narrow place overspread with mucilage, so that the sheet may be folded and securely fastened. The letter ready for mailing resembles the style in use before the envelopes were invented. This the Government stamps in loose sheets and collectively in pads, and it will be put on sale at the leading postoffices throughout the country. As it can be produced at a very low figure and affords the same security that the envelope does, it is expected to take the place to a great extent, of the postal card.

MASON FOR GOVERNOR.—The Baker City Sagebrush says: "N. H. A. Mason, of the cattle firm of Miller & Lux, who has been in this city on important business for some time past, left yesterday for Nevada, where he goes to attend the State Convention. Mr. Mason has been asked by many in that State to accept the nomination for Governor. From our acquaintance with the gentleman we do not hesitate a moment in saying he is the right man for that position."

A BROKEN ARM.—The Walker Lake Bulletin says: "Last Thursday Will Henley broke his arm above the elbow while throwing a ball. At first it was scarcely believed that a fracture had occurred, as such an accident seemed almost impossible. Dr. Reed was in immediate attendance and placed the injured arm on the road to recovery." Will is well known in Reno, having for a number of years clerked for F. Levy & Bro.

HALF RATES TO SAN FRANCISCO.—Round trip tickets to San Francisco and return, void after September 6th next, will be sold at the Reno ticket office for trains to arrive at San Francisco August 29, 30 and 31, at one-half regular rates. This is on account of the California Democratic State Convention, which will be held at San Francisco.

Resolved, That while we mourn his loss, we feel that he has received in the Grand Lodge on high the reward of a faithful life and duty performed while here below;

Resolved, That by his death, his family has lost a kind and affectionate husband and father, the community an honorable and respected citizen;

Resolved, That to the bereaved widow and orphaned child of our departed brother we extend our warmest sympathy in this, their great affliction, and ask for them the bountiful protection and loving care of the all-merciful Father.

Resolved, That these resolutions be spread in full upon our minutes, and that a copy of the same be furnished the family of the deceased brother, and that copies of the same be furnished the Reno Evening Gazette and Reno Journal for publication.

THE PROPOSED INDIAN SCHOOL.—The Free Lance says:

The other day a Free Lance reporter had an interview with Congressman Woodburn relative to the proposed Indian school. Our Congressman said that before he left Washington he went to have a talk with U. S. Commissioner of Indian Affairs John D. C. Atkins. General Atkins said that he was convinced that the Nevada Indians should have a part of the annual appropriation set apart for the education of the Indians. Said that should the people of Nevada furnish the land and erect thereon a building for the purpose, he would set aside a part of the appropriation for the mental and manual training of the Indian children. Mr. Woodburn says also that Senator Jones promised that, before he left Washington he would see Commissioner Atkins on this matter. Mr. Woodburn does not doubt but that if Nevada will do its part the necessary expenses of running the school will be met by the general Government. What should be done? The citizens should bestir themselves. A definite proposition from the Interior Department should be obtained, and the necessary requirements be met by our citizens. With a population of 9,000 Indians, sometime there will be in Nevada a school of several hundred pupils of this race. With the school once in operation there is no doubt that it will be cared for as are all other similar schools in the United States.

A FINE BEGINNING.—Principal McCammon informs the JOURNAL that all the students who entered the University last term, are expected to be present at the coming term which begins next Monday. Other students will enter from Reno and Washoe county, and persons from Carson, Empire, Virginia, Austin and Cortez have made applications for admission; so that the prospect for the Fall term is good. If there are other persons in Reno who wish to apply they will find Professor McCammon at the University on Friday and Saturday from 9 to 12 A. M., and from 2 to 5 P. M. Examinations of applicants will begin on Monday at 10 o'clock and the terms work will begin on Wednesday, September 1st at 10 o'clock.

PULLMAN PALACE CAR COMPANY.—A new division of the Pullman Palace Car Company known as the Western division has been established and the office located at Oakland pier. The division will comprise the following lines, now embraced in the San Francisco district, and such additional lines as may from time to time be added thereto, namely: No. 266, San Francisco and Las Vegas; No. 267, Los Angeles and National City; No. 274, Los Angeles and Las Vegas; No. 275, San Francisco and Ogden; No. 280, San Francisco and Raymond; No. 284, San Francisco and El Paso.

J. P. Meehan, Assistant Superintendent of the company, has been appointed Superintendent of the division

THE INDIAN DANCE.—The town is filled with Washoe, Pinte, Digger and Shoshone Indians, who have convened here for a big dance and pow-wow. Johnson Sides says the first man caught selling liquor to them will be captured and handed over to the officers.

AN IMPORTANT PROJECT.—The Virginia Chronicle says.

A project is now under consideration by the management of the ore-producing mines on the Comstock which, if adopted, will materially reduce the cost of the production of bullion.

It is proposed to put up stamp mills, in the Suro Tunnel to be operated by water power. The ore pulp resulting from crushing will be flamed to concentrators set up on the outside of the tunnel. In many of the shafts there is plenty of water flowing the upper levels to drive a turbine wheel with the tremendous pressure of more than 1,000 feet perpendicular fall. The ore extracted from the upper levels will be run out through the connecting drifts and dumped into the battery self-feeders, located in the tunnel.

This will save the cost of hoisting ore to the surface by expensive machinery, of fuel for generating steam and the expense of transportation and handling the ore over several times, as is the case at present. It is estimated that by adopting this method Comstock ore can be extracted and can be converted into bullion at a cost of less than \$5 per ton.

THE STATE UNIVERSITY.—In the State University last term 39 students were enrolled—more than were ever enrolled in one year before. Eleven other persons have already made application for admission next term. Lyon county is represented by Mt. Wm. Donchy of Mound House. The Fall term will open August 30th for examination and enrollment. New classes will probably be formed in the following branches: Grammar, Arithmetic, U. S. History, Physical Geography, Natural Philosophy and, if necessary, in Chemistry, Geometry, Science of Accounts, Mythology, Latin and Greek. Tuition is free. Good rooms and board in private families may be secured at from \$20 to \$30 a month, so the expenses are less than at any other schools of the State or coast. The Library is furnished with many good books of reference. The best papers and magazines of the literary world are upon the tables. The Chemistry and Philosophical departments are well supplied with apparatus and a good Literary Society has been organized. The University building is most pleasantly located, the climate is delightful and the health of the people good.—Lyon County Times.

FAIR WILL GIVE NOBODY SATISFACTION.

From a politician just from San Francisco we learn that Hon. George W. Cassidy says that nobody can get any satisfaction out of Fair; nobody can get even a hint as to whether or not he is a candidate for re-election. It is claimed that four or five of the leading Democratic politicians of Virginia City went to San Francisco one day last week to in vain see Senator Fair and to urge him to "stand up." The result of this conference is not known, yet knowing the Senator his answer can easily be guessed. Whether Fair's sack unloosens as purse strings or not Adams, Cassidy and Belknap are in the fight to stay.—Carson Free Lance.

The Carson Tribune says:

It is getting rather too late in the season to expect any start made towards the erection of the U. S. building in Carson City for the importation of Democratic voters at this time could not accomplish very much.

The California Wine Crop

The San Francisco Post says:

The latest report from the wine producing sections indicate that there will be a smaller crop this year than was at first expected. Before the grapes were set, estimates were made placing the yield at 25,000,000 gallons, but discouraging reports have been received lately, and the total product is now estimated at 18,000,000 gallons. In several places the crop, which is usually accounted as worthless, will make as much as a third of the crop. The coulure, or dropping of the grapes, has caused a loss of thirty per cent of the crop in several places. The grapes are ripening very slowly, and there may be rain before the crop is picked, in which case the quality of the wine produced will be injured to a certain extent.
